Polaroid iM1836 DIGITALCAMERAS

Polaroid iM1836

Sakar's Polaroid-branded iM1836 is the first Android-powered compact interchangeable-lens smart camera that makes it easy and fun for anyone to capture outstanding, professional quality images and instantly share them with friends. The 18 megapixel camera features the latest Android 4.1 "Jelly Bean" operating system, the smoothest and fastest Android OS yet, and comes standard with a 10-30mm optical zoom lens. The Polaroid iM1836 camera will also offer consumers the flexibility to explore their creativity with interchangeable lenses.
